ARTISANemt™
quietly the best and smoothest

Folding Doors open up the full potential of outside living by bringing the outside in. Panels can be stack out of the way to one or both sides making them an ideal solution for entertainment areas and maximising panoramic views. Smooth to operate the folding door can be manufactured in various configurations of up to 8 panels. The inclusion of quality seals and performance glass means they are suitable for areas with high wind and water requirements.

The Artisan Folding Door

Artisan incorporates a technologically advanced folding door system that surpasses that of ordinary bi-folds on the market.

It moves and feels like no other, because it's made like no other. At the heart of it all – Effortless Motion Technology (emt), Capral's AGS 'Smart Hinge' and 'Easy Gliding' Channel help make Artisan simply the best and smoothest folding door available today.

The Artisan folding door combines aluminium with high quality 316 marine grade stainless steel components. The integrated folding door system has excellent weather tightness, security, environmental performance, structural performance, size and function including internal and external 90° corners.
